Harvest Planning & Engineering Foresters x 2 Rotorua

Hancock Forest Management NZ Ltd (HFM NZ) was established in 2004 to manage forests on behalf of Hancock Natural Resource Group's clients. We currently manage approximately 198,000 hectares of plantation forests on behalf of two clients. Forests are located in Northland, Auckland, Waikato, Bay of Plenty and Horizons Manawatu Regions. HFM NZ is strongly committed to providing a safe working environment and to being good stewards of the environment. We employ approximately 90 staff based in four locations – Tauranga, Tokoroa, Rotorua and Whangarei. Our employees are our most valuable asset and are the key to our reputation and success.

We have recently secured a new client and will begin managing their 33,000 hectares of forest estate from 1 October 2018. This exciting new opportunity for our business will require growth of our Harvest Planning and Engineering Team.

We're searching for two Harvest Planning & Engineering Foresters to be based in our Rotorua office. Reporting to the Harvest Planning and Engineering Manager the roles will be responsible for:

- Providing appropriate assistance in the areas of harvest planning, engineering and road line salvage in the estate.
- Ensuring all standards encompass relevant regulation, legislation, and best practice health and safety and environmental standards to maximise value to the forest owner.

While a forestry related tertiary qualification is preferred, we also invite applications from those with comprehensive road construction and maintenance experience who are self-motivated and have solid computer skills including an understanding of GIS applications. Strong relationship building skills and contractor management experience are required.

For a copy of the role outline please visit our website www.hfm.nz. Please send applications in the form of a cover letter and CV to our Human Resources Team at hfmnzcareers@hnrng.com by Monday 25 June 2018.
